

Customer notice : All products are bespoke and made to order. Our standard lead times are 6 weeks. However, this could vary and Global factors outside of our control may impact this. Artwork will be sent for production after payment has been made & you have agreed to the final design. By approving any artwork you agree that you have checked that all spelling, logos and designs are correct. Artwork is supplied as a guide only and whilst we do our very best to ensure that the final products are as close a match as possible, some designs and colours may vary slightly from those shown. Please note: The placing and sizing of logos and design may vary due to template design and scaling. If a specific colour is required for printing, it is your responsibility to provide us with a Pantone reference, which we can try & match to, otherwise, the closest match will be used. By approving your artwork, you also agree that you are happy for us to use both images of your artwork & final products on our website or social media channels & that you have the relevant authority to be able to use the logos added to your garment(s).
